INTRODUCTION

From the Minister
A key focus for the McGowan Labor Government is jobs, maximising training opportunities and increasing our skills base. Creating training opportunities for Western Australians will ensure we are well placed as the State's economy grows and diversifies.

As WA's leading event to promote careers and training, we are proud to support the annual Skills West Expo. We know the future prosperity of WA is reliant on a highly skilled WA workforce.

To enhance this fantastic event, services from the brand new Jobs and Skills Centres will be available at the expo for the first time. The centres are a one-stop-shop for career and training related services and form part of the McGowan Government's commitment to build the future workforce and prevent skill shortages.

The team can take you through a range of resources about training options to support you with job seeking. With their industry connections and knowledge of the training sector, they have already successfully helped many Western Australians achieve their career goals.

In addition to these new services, employers, training providers and not-for-profit organisations have been brought together to showcase the opportunities available, whether you’re embarking on your first job, changing careers or looking to upskill.

I encourage you to take advantage of the interactive displays at the Expo – have a go and experience a new skill first hand. Check out the WorldSkills Try a Skill zone too – a dedicated space where visitors are guided through 19 hands-on activities by industry experts.

There are plenty of opportunities to get involved in training. WA trained apprentices and trainees excelled at the 2018 WorldSkills National Championships in Sydney recently, picking up 21 medals and the prestigious VETiS Shield, recognising WA as the best performing State in Vocational Education and Training for secondary school students.

I encourage you to take the time to talk to the experienced trainers, employers and apprentices at the Expo who will be happy to share their knowledge and help guide you in shaping your future.

Sue Ellery MLC
MINISTER FOR EDUCATION AND TRAINING

COME & TRY ACTIVITIES

Beats Station at SAE Creative Media Institute — Site 14
Try out our Ableton station and make some banging beats!

CPR Skills at Hailer Solutions — Site 44
Come and try out your CPR skills with the Brayden Pro manikins – think your skills are top notch! Come and try our manikin and get real time feedback.

Facials at Australian College of Beauty Therapy — Site 27
Experience a taste of what the beauty industry is like with an advanced facial!

HTC Vive at SAE Creative Media Institute — Site 14
Immerse yourself into Virtual Reality and try out our Student developed VR Games

Improve your range of motion at Australasian College of Massage & Myotherapy — Site 27
Learn some tips & tricks to improve your range of motion when it comes to playing sport and working out!

Makeovers at Australian College of Specialist Make-up — Site 27
Stop by our demo’s area to experience mini-makeovers, make-up tutorials and more!

Mirror Boxes at Edith Cowan University — Site 18
The mirror boxes are used by Occupational therapists when working with an individual to help them overcome perceptual difficulties followed by a stroke or brain damage.

Sea grass at Edith Cowan University — Site 18
Showcasing the underwater gardens of the ocean

Slow-Motion at SAE Creative Media Institute — Site 14
Blow a raspberry or practice that epic hair flip in our Slow-Mo Booth

Tourniquet And Bleeding Control at Hailer Solutions — Site 44
Come and try our interactive models and learn how to apply a tourniquet in an emergency situation

Try a trade or control a robot at Dept of Communities — Site 76
Get hands on at the Communities stand and try-a-trade with the women from TradeUp or control a robot with Robogals. We also have career advice from IT specialists KineticIT.

Virtual Reality at National Disability Services — Site 113
VR is a virtual reality game that provides “work experience” immersion into Disability Support Worker roles using real life scenes captured through 360-degree filming and utilizing interactive game play.

Virtual Reality at Roy Hill — Site 46
Roy Hill’s 3D Models of Port and Processing are accommodated by the Virtual Reality (VR) gear to depict the Mine Site virtually. VR allows for a total overview of all Port and Process Plant Operations resulting in a meaningful visualisation of physical assets.

Wacom Station at SAE Creative Media Institute — Site 14
Show off your talent on the tablets with our Wacom set-up

‘CREATE A WINNING RESUME’ WORKSHOPS

Led by triple international award-winning resume writer, Marlene Cole;
Learn all about the key elements of a New Generation Careers resume in these hands-on workshops.

CAREER CHANGE

Returning to the Workforce
Friday  9.45am to 10.30am
Saturday  10.15am to 11.00am
2.30pm to 3.15pm
Sunday  2.30pm to 3.15pm

Are you stuck in a job that isn’t you? Burnt out? Dream of working in a new industry? Making a career change is challenging and a template resume won’t work. When most people change careers several times over in their lifetime it’s important to show transferable skills the right way.

STUDENT RESUMES

First Job Seekers
Friday  11.00am to 11.45am
Saturday  12.30pm to 1.15pm
Saturday  1.15pm to 2.00pm
Sunday  11.45am to 12.30pm

Never had a job? Don’t think you have experience? Most job seekers struggle to come up with experience when they haven’t had a job. So what do you put on your resume when you’re still in school or just graduated? Lots, believe it or not! This is the perfect workshop if you are a student, graduate, teacher, educator or parent to really help get that first job.

RESOURCES INDUSTRY

Mining, Oil & Gas
Friday  1.45pm to 2.30pm
Saturday  11.45am to 12.30pm
Sunday  10.30am to 11.15am
1.15pm to 2.00pm

Applied for hundreds of jobs with no luck? Working on site but the project is ending? Want to make the big FIFO/DIDO bucks? It’s tricky to break into this growing industry or gain that dream job unless you join a certified resume specialist in Mining & Energy! Trades & Construction who has gained clients that elusive offshore job.

Try’a Skill ACTIVITY ZONES

Go to page 7 for details of all the hands-on activities.

Western Australians now have access to Jobs and Skills Centres – a new service that provides a one-stop-shop for information and guidance on career choices and training courses, help with job searching and jobs matching, and assistance with apprenticeships and traineeships.

You can now contact or visit your local centre for free, friendly and professional advice on choosing a vocational education and training (VET) course, career pathway options, and assistance with finding employment. The centres also offer free workshops such as resume writing and succeeding at job interviews, to assist you in finding employment.

The team at your local centre can take you through a range of their interactive online resources such as ‘Choices’ and ‘Hands on’ which assist you to explore the things you like, are good at and occupations that could suit you. Specialist services are also available to support Aboriginal people to get into training or find a job.

The Jobs and Skills Centres also work closely with local businesses and employers, providing free assistance with recruiting new workers, helping to find apprentices and trainees, and developing the skills of their workers. The centres also offer an on-line jobs board service through the Jobs and Skills WA website, where employers can post job vacancies. Working closely with the local community helps the centres keep up to date with the needs of local industry and business, so they can offer great advice on training and career options that are most likely to lead to successful employment outcomes.

As part of the McGowan Labor Government’s work to build the future workforce and prevent skill shortages, five Jobs and Skills Centres opened in April 2018 at metropolitan TAFE colleges in WA.

These first five centres are located at the Joondalup, Balga and Northbridge campuses of North Metropolitan TAFE; and the Thornlie and Rockingham campuses of South Metropolitan TAFE, with another centre opening soon at the Peel (Mandurah) campus. A further seven centres will be established in regional areas throughout WA; extending from Broome in the north to Albany in the south, and Kalgoorlie in the east. As part of the Jobs and Skills Centre network, outreach services will be available for people in other regional areas. Specialist services for people from culturally and linguistically diverse backgrounds and for ex-offenders are also available.

The centres are complemented by the Jobs and Skills WA website, which offers a comprehensive suite of information and resources about vocational education and training, careers and jobs. The website also features a course search that lists all publicly funded VET courses available from Western Australia’s TAFE colleges and private training providers. In addition to the general jobs board there is also a dedicated Aboriginal jobs board with employment opportunities selected specifically for Aboriginal people. Information on the Jobs and Skills Centres’ locations and services is also available on the website – visit jobsandskills.wa.gov.au to find out more.

Staff from the Jobs and Skills Centres will be attending the SkillsWest Expo and invite you to stop by site 21 to say hello.
WA’s Skills shine at 2018 WorldSkills National Championships

A small team of 50 Western Australians put their skills to the test against the best from around the nation at the 2018 WorldSkills Australia National Championship in June this year.

The event, which was held in Sydney at the International Convention Centre showcased over 50 skills with Australia’s best battling it out in a tough three-day competition for gold, silver and bronze medals in each category.

Among the WA team members were 17 Year 12 students, representing their state in the WorldSkills VETiS* (VET in schools) Categories with competitors from Karratha to Bunbury showing off their skills in Electrotechnology, Hairdressing, Metals and Engineering and Hospitality.

Competitors had to complete a series of tasks in their skill area under timed conditions, which were then marked by a panel of expert judges.

And the result was an outstanding achievement by Team WA winning a total of 21 medals! This placed WA as the second highest performing state or territory in the country.

WA performed particularly well in the hospitality categories, winning gold, silver and bronze in the VETiS Food and Beverage category and a gold medal in VETiS Commercial Cookery. In other categories, WA won bronze in VETiS Construction while Caitlin Budd from Karratha Senior High School, not only won the bronze medal in the VETiS Electrotechnology category, but also caught the eye of a peak industry association who want to secure her an apprenticeship in the field. In addition, WA won its second consecutive gold in VETiS Metals as well as the bronze and took out gold medals in VETiS ICT, Business Services and Hairdressing.

WA also won bronze in the open competition in the Retail Baking – Pastry category, gold in Bricklaying, gold and silver medals in Painting and Decorating, silver medals in Plumbing, Cabinet Making and Heavy Vehicle competitions and bronze medals in Graphic Design, Floristry and Sheetmetal competitions.

However the biggest result and upset of the night came when the announcement was made of the winner of the VETiS Shield - a trophy awarded by WorldSkills Australia to the best performing State in the VETiS categories.

Since its inception, 17 years ago, the shield has been won only by New South Wales, but not this year. For the first time in its history, before a 2,000-strong crowd, the winner of the VETiS Shield was announced as Western Australia, thanks to the outstanding performance by all the Team WA VETiS competitors.

Since travelling back to WA, the VETiS Shield has been to a number of schools that produced WA’s 2018 champions and will soon start on a victory tour of participating schools where it will remain in residence for a short period to share the story of WA’s success.

National Medal winners may now be considered for selection in the 2019 Team Australia Skillaroos to compete in the 45th WorldSkills Competition in Russia.

Regional Competition heats, where Team WA members are selected, will be held across the State in 2019 at participating TAFE’s, training providers and the 2019 Skills West Expo.

*VETiS competitions, VETiS category names and the VETiS Shield are terms used by WorldSkills Australia who own and operate the competition program.

If you think you can match the talent of the 2018 Team WA, then keep an eye out for details of how to apply, or visit https://www.worldskills.org.au/ for more details.
Try’a Skill Interactive Zone

Visit our exciting WorldSkills Try’a Skill zone - try your hand at different activities and find out from the experts about a host of career options.

**BRICKLAYING with ABBTF** Learn how to butter a trowel and lay a course of bricks. The Australian Brick and Blocklaying Foundation (ABBTF) will be providing expert advice on how to become a bricklayer, how to access funding support and the benefits of a career in construction.

**CONSTRUCTION PRODUCTION LINE** Test your construction skills on our production line where you will learn about carpentry, cabinetmaking and tiling. Create a tea tray or plant pot base of your own design. You get to take the tray home with you too!

**PLASTERING** Here you will get the chance to learn how to mix plaster and learn the art of decorative plaster work.

**AUTOMOTIVE MECHANICS** Get your name on the ‘Top Gear’ Try’a Skill Leader board in our driver change speed challenge. Be the fastest at putting on a racing car helmet and strapping yourself into a racing car.

**WELDING** Enter the world of virtual reality and test your skills as a welder.

**BEAUTY CARE** Treat yourself to a massage and try your hand at applying make-up and nail art with our beauty specialists.

**HAIRDRESSING** Learn how to master hair braiding and beading.

**MUSIC** Jump behind the computer and test your ear for music by creating your own songs on an exciting music software program. Meet the musicians for a jam and find out about life in the creative industry.

**PHOTOGRAPHY** Stage your own photoshoot and see the images on the big screen.

**FILM & TV** Explore the outside broadcast truck and try your hand at green screen presentation. Do you have what it takes to report live from the scene and then throw a cross back to the studio? There is only one way to find out!

**BOOM RADIO** Meet the broadcast team from North Metropolitan TAFE and find out what it takes to work in radio. The students will be broadcasting live from the event in the Try’a Skill space all weekend.

**GRAPHIC DESIGN** Have a go at putting an image of yourself on the front cover of a magazine and then put your creativity skills to the test in a logo design competition.

**WEB DESIGN** Have a go at writing and developing programming codes with functionality and learn the basics to web design and how to develop a website.

**INTERACTIVE MEDIA** Have a go at beating the top scores in arcade video games designed by the students at Central Institute including centipede and car racing. You can also find out about the App Development courses on offer.

**VR** Step into the world of virtual reality by having a go with some VR googles or have a go at playing a game of connect four.

**AGED CARE AND DISABILITY SERVICES** Witness and experience a hoist in action and learn safe tips on how to move patients with mobility issues in a safe manner. Check out the range of apps which assist people with communication issues and have a go at role playing to demonstrate how you would use these technologies.

**BROADCAST TELEVISION** Learn about live television recording techniques using multiple cameras and then see yourself live on the big screen in a variety of sets used by popular television shows.

**DENTAL STUDIES** Are you brushing your teeth right? Does your tooth brush get all the right areas? Have a go at using our vegetable die which will reveal plaque and the areas you are missing, and get all the tips on how to keep your teeth healthy.

**NURSING** Find out if you have what it takes to enter the world of health care. Get your blood pressure checked or have a go at using a hoist to move a patient in and out of bed and learn about the huge variety of professional pathways in this industry.

Information correct at time of going to print; activities are subject to change at short notice.
A major overhaul of the Australian Government’s Disability Employment Services (DES) program came into effect on July 1 with an expansion of offices to assist people into work.

Maxima is a long-established, not-for-profit organisation supporting people with disability to secure employment through the DES program. Maxima has opened new offices in Armadale, Belmont, Fremantle and Subiaco and has expanded its offer in East Victoria Park while also offering services from another six outreach locations across Perth.

It is also an important exhibitor at the Perth Expo to demonstrate how it assists customers who have a disability, injury or health condition to prepare for, find and retain a job.

Andrew Worrall, Maxima’s National Business Development Manager, said, "We value each person’s experience, strengths and interests and we work hard to find a job that is meaningful for individuals between the age of 15 years and retirement age. Finding the right job often means Maxima’s Consultants will approach employers who have not previously thought about hiring someone with a disability, injury or health condition. But many of our happiest success stories for the customer and the employer come from opening doors that were otherwise closed."

Maxima’s way of doing things is summed up by our catchline: We see potential. Our staff members are genuinely passionate about changing the lives of people who come through our doors by finding them meaningful and life-changing employment opportunities.

Maxima is at site 134.
Free Career Advice

Experts from the Career Development Association of Australia (CDAA) are at the SkillsWest Expo to provide free advice on career opportunities.

We live in an unpredictable world of work with many current occupations expected to be redundant in less than a decade. The CDAA has stated that by 2030 workers will need greater problem solving and critical thinking capabilities along with advanced skills in communications, science, technology, engineering and mathematics.

Increasingly, young people and mature workers seeking new employment directions will need the support of professional career practitioners to navigate unprecedented workplace changes. “The importance of understanding the changing nature of work cannot be underestimated, and young people in particular should actively seek career advice on skills development to achieve their aspirations,” CDAA spokesperson said.

“Relevant, expert and accessible career guidance is a necessity providing support for people in their understanding of future opportunities and the skills and qualifications necessary for them to be successful.”

CDAA qualified career practitioners provide this advice based on a clear understanding of the education sector and the labour market now and into the future.

The focus of professional career development is on enabling people to develop the skills to manage these challenges, make good decisions about their working lives, and maximise their contribution to the communities in which they live and work.

Don’t miss the opportunity to engage directly with CDAA experts at the Career Advice Area during the Expo.
Most job seekers start their quest for employment by completing a resume outlining their qualifications and personal attributes, then look for a job. However, according to recruitment and human resources expert, Marlene Cole, things have changed significantly in resume requirements that will impress a prospective employer.

“The huge majority of Australian job seekers are using old template-style resumes that do not get through the competitive process that will lead to an interview,” she explained. “The biggest change in resumes is that one size doesn’t fit all. You must adapt your resume for each job application and there are key elements that must be addressed. Grabbing a resume template off Google or Microsoft Office is the biggest mistake people make. Don’t do it! If you are applying for jobs and hearing nothing, your resume is not working.

The new generation careers resume has a targeted headline, key word section and clear, quantifiable bullet points that will create a first impression foothold, show that the job seeker takes their career seriously, and demonstrate the value the person will bring to a company.”

Marlene said job seekers often required the support of a professional career practitioner to help them develop the resume and presentation skills they need to get noticed.

She has been writing resumes and LinkedIn profiles along with interview and job coaching for more than 15 years. On all three days of the SkillsWest Expo, Marlene will present informative hands-on workshops to create winning resumes that meet what recruiters are looking for when seeking successful job candidates.

As an international multi-award winning resume writer, she has written resumes, performed job-search coaching and prepared candidates for interviews, ranging from entry level to executive positions. This includes first time job seekers, people seeking to advance their careers within their current employment and others looking for a complete new career path.

“I am passionate about helping people develop the career tools needed to get noticed and on the path to workplace success,” Marlene explained.

Find the Schedule of Marlene’s Resume Workshops on Page 4.

Start Your Career Pathway to Becoming a Driller...

DDH1 Drilling is one of Australia’s leading Mineral Drilling Contractors, providing both surface and underground drilling services throughout the country. Australian owned and operated, DDH1 employ more than 450 ‘Fly In / Fly Out’ (FIFO) field crew who assist with the day-to-day operations of our Drilling Fleet.

The role of an Offsider is to assist the Driller with duties that may include:
- Mobilising the rig from one set up to another
- Handing core, drill rods and core tubes - removing from inner tube, placing in core boxes and labelling box
- Mixing drill fluid additives
- Assisting with equipment maintenance and repairs.

To be considered for employment in a ‘FIFO’ position with varying roster rotations, working a 12-hour day on either a mine site or remote exploration camp, the following criteria is necessary:
- Physically fit
- The ability to pass a pre-employment medical and drug & alcohol screen
- A valid C - Class Driver’s Licence (to be considered for underground)
- A Heavy Rigid Drivers Licence (to be considered for surface)
- Police clearance
- Senior first-aid certificate

We work closely with The Chamber of Commerce (CCI) offering Traineeships which are nationally recognised and accredited.
Navigating your way through employment notices can be challenging and tedious, and then there is the task of preparing a resume and covering letter to a prospective employer. However, the journey into the workforce has been made easier through the assistance of jobactive, an initiative of the Australian Government through the Department of Jobs and Small Business. The website, jobactive.gov.au, helps open doors to employment in four ways:

- thousands of jobs are listed on the website and you can apply directly online. If you are on income support, positions you apply for on the jobactive website will count towards your job search effort.
- get tips on finding and keeping a job, jobactive can help you create a resume along with a career profile and covering letter. There are also tips on how to dress for an interview and a lot more.
- see how other people like you are finding work. It is hard to maintain a positive outlook when looking for a job, but the jobactive website shares uplifting stories of people who have found work through the program.
- you can get help from a jobactive provider who tailors services to you and helps you out with the cost of new clothing or uniforms, travel costs, getting your driver’s licence and more.
